Fall/Winter 2020 - N°2

HIGH CONCEPT INTERIORS

EDITOR LETTER

Welcome to the second edition of V.Luxe - Visionary Luxury

BY CASTRO LIGHTING

Castro Lighting's team envisioned and developed this magazine to bring you into the world of design. V.Luxe is an extension of day-to-day inspirations, team trips, discoveries, and the brand's biggest passions. It all started with the idea of gathering everyone's favourites (from fashion to culture), give it a twist, and put it on display as an embodiment of the team's personality.

This is a project where the upcoming trends, from varied areas of interest, are forecasted for the spring/summer and fall/winter seasons. As lifestyle and Interior design live hand in hand and both search for inspiration in each other, no one will be a true interior lover without the right amount of love for fashion and culture.

We are surrounded daily with worldwide releases from east to west, it's only fair to share a collection of must-haves and utmost relevant content with you.

The development of the Fall/Winter issue came natural as this is one of our favorite times of the year.

From the most famous ski resorts, to the outstanding Christmas markets and exhibitions in Europe, be sure to take advantage of this cold weather in the most whimsical way possible! In the interior area, learn how you can make you home feel like a true shelter from the cold and make it cozy and mellow.

Also, Art-Deco is making its great come back and we'll all over it.

Just get inspired, catch up with the trends, explore, and feel the creativity we want to share with you!

SUGAR ALMOND

An appetizing mid-tone

At this time of the year, we usually feel more nostalgic, melancholic and crave for more warmth in our hearts and homes. The Autumn/Winter season reminds us of cosy warm blankets and cinnamon almond latte.

2.

PANTONE®
18-1155 TCX
Sugar Almond

SUGAR ALMOND COMPLETELY SATISFIES YOUR COMFORTS

How time flies. It's officially Fall and, in the blink of an eye, we are about to celebrate Christmas and write our New Year's resolutions.

The cooler and rainier it is outside, the more often we stay inside, as the house becomes our shelter from cold. With the change of seasons, the desire to update the home interior naturally comes along and grows stronger: more goods, more textures, more layers. The more, the better. Well, you get it, right?

4.

6.

3.

5.

According to Pantone Colour Institute, PANTONE 18-1155 Sugar Almond – is an appetizing mid-tone, a sweetened shade of brown. It sounds sensational. This is exactly what a soul needs. So, what is a better way to feel good at home? We've prepared some tips for you. Start implementing this sweet colour trend in interior decoration ASAP.

Timeless, classy, and the most influential interior colour trend of 2019-2020. Warm-hearted yet encouraging and bold! It reveals a reserved style and elegance, where coziness and luxury are harmoniously fused together. Sugar Almond completely satisfies our searches for sophisticated yet intimate home comforts.

By the way, psychologists keep ensuring us that this colour relates to quality in everything. It brings physical comfort, simplicity (in a good meaning) and quality. Sugar Almond is quite sensual and uplifting!

So, we couldn't help but wonder, what makes us pining for the sugar almond? Is it all about mellow and warm vibes it spreads around? Or maybe, subconsciously, it evokes inner feelings of serenity, protection, and warmth, combining luxury with coziness. Anyway, we love to love it!

WARM VIBES TO BRING YOU PHYSICAL COMFORT

10. Peach Button Dress by Carolina Machado **at carolina-machado.com**

When decorating, integrate more sugar almond colour décor details and accessories to bring mellow warmth to your interior and give extra "flavour" to space.

Start with nude and neutral items, pair it with other warm sugar almond textures and colours, then add some statement luxury lighting to create a renewed interior concept. Voilà!

VELVET FROSTING
Luminous Fabrics & Décor

1.

2.

We gathered a list of tendencies that will be going out of fashion and the ones that will be coming in vogue.

The upcoming seasons dictate the end of worldwide trends that have taken the lead in interior projects for the past years. It's also the beginning of new experiments, combinations, fabrics, materials, and concepts. We can never take trends and great movements for granted. When we believe the interior design world is figured out, there comes a new way of jazzing up the décor. Here are the four tips we can't wait to see everywhere!

Who else was waiting for these frosting days to bring back the "Hygge"? Mistake. The Danish concept of quality of coziness and the feeling of well-being in interiors is on its way out. This doesn't mean you'll have to give up the warm embrace of soft fabrics. "Bouclé" comes in its replacement. The fabric is popping up in great upholstery pieces and is setting the trend on our favourite showrooms and interior projects. It emphasizes textural value, making coziness a more exciting element that's not plain nor "boring".

3.

The "new" bouclé reclaim comes hand-in-hand with natural textiles. In the bedroom, for instance, go for wools, cotton, linen, or alpaca, in the design scheme. They are everyone's favourite as they're considered healthy, cleanable, breathable, and have a timeless sense of beauty. On the other hand, leather has been losing its power. It is a less sustainable option, becoming the "black sheep" of textiles. But don't lose your hope! There're new vinyl alternatives that look and feel exactly like leather.

You're the one choosing the best way of expressing personality thought the design of the house. If you're vibrant and groovy and are upset with the discredit of funky patterns, what about floral fabrics and wallpapers? This is the most trending alternative, from discrete half wallpaper walls to full-on displays of amusement, choose the option that suits your style best!

5.

1. Marie Chair by Castro Lighting **at castrolighting.com**
2. Boucle Bench by Brian Paquette for Lawson Fenning **at lawsonfenning.com**

4. Summer Fields by La Feature Wall Murals **at feathr.com**
5. Black'n'green interior by Alexander Barchan **at behance.net/barchanaz**

THE PERFECT SHELTER TO KEEP YOU FROM THE COLD

4.

Now... We saved the most exciting element for last. Bring nature into your house and emphasize the unspoken affair of nature with mankind thought organic materials. Wood flooring, natural stones, daylight and plant life. Imagine a high ceiling living room with top to bottom windows, light wood floors, accents of marble or onyx, and a master centerpiece: a transversal indoor wall garden.

Bringing plant life into your house will make it feel rejuvenated an alive. A perfect, natural, shelter from the cold. What else could we want more than this for fall and winter? Maybe a fireplace... That's also an unforgiven need!

1. *Matisse Divider*

What comes first to your mind, when we say "Art-Deco"?

Art-Deco Interior Design Style

CLASSY COMFORT

2.

We bet it reminds of the Great Gatsby, fancy life, opulent parties along with amazing cocktails, stunning outfits, and jazz. The influence of Art-Deco can be traced in everything: from architecture, furniture, lighting design, textiles to fashion (especially jewellery). As you might know, it belongs to one of the most sophisticated and attractive styles of art of the 20th century.

Today, Art-deco is considered to be a strong luxury statement and is being perceived as a symbol of status and wealth, as well as the embodiment of exquisite taste and commitment to excellence. This interior design style is perfect for self-expression just like the clothes we wear to show our personality and impeccable taste.

Alluring and influential, Art deco is the abbreviation for a French «decorative art» and originates in the 1925 «Exposition Internationale des Arts Décoratifs et Industriels Modernes». A fashionable elegance and refined delicacy – a so-called visionary luxury, which is complete, stylish and classy. Musthaves of this style are expensive and rich materials. Gold, brass, crystals, rare woods, marbles, and lacquer finishes are the main key features.

6. Aegean Espresso Cup + Saucer (Set of 6) by L'Objet **at l-objet.com**

A FASHIONABLE ELEGANCE AND REFINED DELICACY

Knowing that Art-Deco interior design concept was extremely in vogue back in the 1920s and 30s, it is having its huge come back in 2019-2020. The iconic style had some transformations in the concept on the way back though kept its core. Art-Deco is the best way to complement the various areas of the house, in order to attract a visual interest to the interior. It is usually identified by streamlined shapes, majestic ornamentation, bold geometric patterns, and striking colours. Bright and deep, the style itself is sending a powerful message. Art-deco is kind of whispering: be bold, look luxurious.

6.

5.

Nowadays, Art-deco is a refined, groundbreaking, and functional luxury statement. A touch of perfection that never goes out of style. A contemporary art-deco interior can be reached by a total look, or adding some accents to any interior space, like luxurious lighting fixtures, or decorative accessories.

Furniture exhibition is now complemented by lighting, accessories and garden options.

MOST FAMOUS SKI RESORTS

At this time, we give you a taste of the good life. Well, ladies and gentlemen, fasten your seat belts and enjoy the ride!

Whistler Blackcomb

Canada

A resort village with proper energy. It's quite obvious that there is a bunch of luxurious stores, restaurants, cafés, bars, and pulsing aprés nightlife. The pedestrian-only Village is a lifetime destination into two massive mountains, unique to North America, with a special vibe and style. Whistler village is a magical place, where you can fully relax your mind and body. Slow-motion life to enjoy local restaurants' atmosphere while tasting good quality delicacies.

If you prefer an active pastime, go for activities: backcountry skiing, Coca-Cola® Tube Park – feel the wind in your face while going down the massively breathtaking tubing hill. Crystal Hut Fondue Tour by Snowmobile or Snowcat and Dog Sledding are the must. Keep your eyes wide open, experience free mountain tour – the Whistler Blackcomb CIBC Mountain Host program, that offers free orientation tours daily for skiing, snowboarding, and sightseeing. Enjoy top of the mountains to capture an epic 360-degree panoramic view. The GMC Race Centre on Blackcomb Mountain located on Cougar Milk Run offers friendly competition for skiers and snowboarders. Try your fortune with free racing or group events. The best one wins.

Besides this, get inspired by the majesty of cultural diversity, live your life to the fullest and make memories to last forever. Art lovers will appreciate the Audain Art Museum where is exhibiting the Art of British Columbia. Got tired of routine, craving for some new impressions? Entertaining, amusing, and interactive ways to update your reality – Escape rooms and quests. You've got only 45 minutes to escape and save the world!

We also think you deserve a breakfast for champions. So, get on the Whistler Village gondola between 7:15 and 8 a.m. for a mountain-sized breakfast buffet at the Roundhouse Lodge. Treat yourself to something nice. Savour the view and be a "part-time" lord of the mountains.

St. Anton am Arlberg

Austria

If you're into filling your lungs with fresh and cool mountains' air, go for St. Anton. It is one of Europe's — and the World's — top ski resorts for "big league" skiers, with the most stunning views and challenging slopes in the Alps. If you're an expert skier, this is the right place to be.

Back in the day, St. Anton made a great impact on ski history – in 1901 the first ski club in the Alps began to function there. This spot remains super inviting for globetrotters from all over the globe.

Nowadays, it's a contemporary holiday resort that has preserved its own unique identity, and traditional allure. The warm welcome, generous reception and entertainment of guests, along with Tyrolean customs are a corporate style of the village as its international, cosmopolitan temper.

THE PLACE OF THE 1ST SKI CLUB IN THE ALPS

Besides standard winter sports activity and stunning bird's eye views of peaks, one of the most appealing offers of this resort is Christmas Magic in December 2019 – "Adventzauber" aka as Advent Magic in the Park a Christmas theme trail for all ages. It invites people from all over the world to unite and enjoy the festive mood and run-up to Christmas. There is a Christmas photo corner, where everyone can design their greeting cards. Children can visit handicraft sessions at the elf's workshops; listen to festive stories and poems from St. Anton, recited in the local dialect. And of course, Xmas cookies tasting made of traditional recipes. Guests can also watch the life-size nativity scene at the Mühltobel Gorge and enjoy the sound of brass bands.

One more secret of great value – it is a perfect place to try Mulled wine (German: glühwein (or glüwein) AKA "hot wine") – a hot alcoholic drink based on red wine heated to 70–80 degrees with sugar or honey and spices. Traditionally served in Austria, Germany, Switzerland, and the Czech Republic at Christmas markets and holidays held outdoors.

Are you feeling festive yet? Dress up, buy the tickets, and take the journey!

Courchevel

France

Courchevel has always been a famous ski resort. Luxury fashion boutiques, gourmet restaurants, and fancy parties with champagne shower all over the place. Sweet life only. It sounds even a bit cliché. Though, besides its thrilling slopes, there are plenty of activities. Get ready to master l'art du chill, we are about to reveal a hot to-do list. Are you hungry for more?

There is an adventure camp. All spicy feelings included: multigliding (airboard, parets, snake gliss), snowmobile: on a 700-metre closed track, at an altitude of 2000 metres. You can embrace a multigliding package (multigliding + snowmobile), or test a quad bike on snow – a new gliss sensation to try!

In Courchevel, snowsports also mean tobogganing. The resort offers various options. It's up to you: 2 kilometres through a forest, 3 kilometres of Grand Prix-style racing, or just a few meters with little ones. Be adventurous, feel the heat of the moment, adrenaline pumping and all that stuff guaranteed. There we are! Look, a Formula 1 champion driver is born.

THIS PLACE IS AN ADVENTURE CAMP YOU CAN'T GET ENOUGH

Amazing experience of biathlon shooting is also available – shooting with real biathlon rifles on official targets 10 meters away. If you are a rafting fan, you should try snow rafting: sensations and huge gliding descents in a rafting boat. As for tubing, one can hurtle down a slope in the large buoy (1 or 2 people). Dog sledding, fat bike, flying, hang-gliding, helicopter, hiking and snowshoeing, hot-air balloon, ice climbing, ice skating, paragliding, skydiving, snowcat driving, snowmobile, snow-scooter, torchlit descent, and more. Do you still feel bored? Just in case you get tired of snow&sports, you can plunge into a relax-zone of aquafun area, bowling, cinema, cookery, fitness, dancing, well-being and yoga, spas, or theme evenings. The best time of your life is around the corner.

Cortina D'Ampezzo

Italy

The five peaks of the Cinque Torri give prestigious Cortina D'Ampezzo the most alluring atmosphere and ambience among other Italy's ski resorts. By the way, the entire area is included in a UNESCO World Heritage. The resort provides different winter sports activities: from Alpine & Nordic skiing, snowboarding, snowshoeing, ski mountaineering & freeride to fat bike, sledding, snowkite, ice skating, curling, ice climbing, and cross-country skiing in the Dolomites. Moreover, on 9 June 2016, the 2021 Ski World Championships were officially awarded to Cortina d'Ampezzo.

Besides its fantastic winter sports attractions along with the beauty of the preserved nature and its wilderness, one can plunge into the cultural heritage of the region. We bet you have never heard about the Ladin language and the dialects of the dolomites. Unlike others, Mountain people cherish their traditions and safeguard the Ladin language aka "Ladin Dolomitan" which is the Dolomite's Ladin. The Museum of History, Customs, Culture of the Tradition of the Ladin folk is located in the Municipality of Livinallongo del Col di Lana, near the square of Pieve di Livinallongo. This Ethnographic Museum shows off four segments that present a complete overview of the customs and traditions of the Ladin culture of Livinallongo.

Artistic wrought iron handicrafts could be an interest as well. A charismatic Dolomite landscape is an important concentration of churches and chapels. Knowing the fact that this spot is shrouded in mystery, you would like to see for yourself. The Dolomites have an ancient legend that gets passed on from one generation to another for the centuries. The tale of Carlo Felice Wolff called "Lusor de Luna" reveals the secrets of this intriguing story. Since then, the Dolomites have been called The Pale Mountains, a fairy-tale spot for remarkable holidays in the UNESCO Dolomites.

St. Moritz

Switzerland

St. Moritz ski resort is a perfect example of Swiss standards of quality. A striking destination in Europe, where you can lose your breath. In case you are willing to discover new horizons alongside the most beautiful resort attractions and capture an epic 360-degree mountain's panoramic view – you're on the right path.

This amazing paradise on Earth is like a magnet for famous people, movie stars, artists, designers, and aristocrats. And we know why. It offers a classy lifestyle: iconic events, grand hotels, shopping, casino, the St. Moritz Olympia's bob run, Cresta run – AKA gentlemen on sleds, and a vintage car racing. This resort will also feed you with some cultural events, as this upscale Alpine winter sports destination has always been attractive to artists and thinkers. Regarding the Arts & Culture section you might enjoy the resort's history, architectural gems (from rustic charm to cosmopolitan chic), and of course its museums - where you can get inspired by the works from Giovanni Segantini to Andy Warhol.

What is more, at the spot you will have a warm welcome by star-rated restaurants, where you can treat yourself with dining at 1800 m, dining at 2400 m, tea-time, nightlife & bars. The bucket list of sports & wellbeing to try: Ski Alpine, Nordic, ice skating, wellness & spa, watersport at 1800 m, golf at 1800 m, leisure hiking, mountain bike, altitude training. Plan your next dream trip.

INTERIOR TRENDS

NEW YEAR, NEW HOME!

Home is where your love is.

SOCIABLE SPACES

If you have the perfect room space, it could be great to incorporate two sofas and more pieces to sit to make a living room more sociable and friendly. Along the way, creating an enthusiastic bar or lounge area for gatherings and cocktail moments means taking this trend to another level.

When it comes to love for the new interior's trends, every year we get fresh approaches to influence and inspire our daily surroundings. Every corner is important to create an impression, a feeling, true emotions.

For most of us, home is a constantly evolving collection of objects, moments and all the things we love. It's a key factor to keep our home emotional. Every year the new trends challenge us to incorporate new beauty each season, which influences us to update our homes. It feels like the 2020 year will be full of energy, but a kind of energy that is truly positive. Mindfulness, consciousness and real social bonds.

Mondrian Suspension & Sedere Chair
by Castro Lighting

ECLECTIC GLAMOUR...

"Sexy Seventies-style" with a smart opulence jars impressive feeling. The use of shapely furniture with rounded curves to keep the designs fluid provides an elegant theme for your dining room area. When it comes to using designs with crystals that have a contemporary vibe can also be a brave move to incorporate this trend.

Savoye Table Lamp
by Castro Lighting

WARM MARBLE

Marble will always be a material of relevance for your home. But now it's important to keep its vibes more seductive instead of strong. Accessories and furnishings with brown marbles add this special touch easily to the space, as it also feels more comfortable and sophisticated.

Streamline Suspension by Castro Lighting

GEOMETRICAL AND LINEAR SHAPE

As you could see from the most important design events during the year, geometrical lighting with noble materials is imperative to pop unique emotions from your favourite living areas. Going for gold tubular shapes is the key.

Elven Wall Lamp by Castro Lighting

CRAFTSMANSHIP AND HANDMADE

When it comes to reconnecting with the passion of production for the products, we use to embellish an ambience and avoid the huge industrialized products, - rediscovering traditions and craftsmanship technics is a must. Hammered brass for lighting can be a beautiful example of that unique touch.

Marie Chair & Haring Table by Castro Lighting

SOFT AND SMART TEXTURES

Texture comes in 2020 interiors incorporated in the most surprising materials. Wallpapers, soft 3D blocks, fabrics on upholstery that provide an enthusiastic dynamic into the most important house environments.

KEEP NATURAL LIGHT IN MIND!

As a day goes by when you have big spaces with wide windows use soft fabrics to have that natural light to enter your living room. Spend some time embracing how the sunlight moves around every space and objects. This will also help you divide the areas and bring a new spark to the reading spot, chill out or relaxing areas.
